43rd Orthopaedic World Congress  
21-23 November 2023

*combined meeting with the Egyptian Orthopaedic Association*

PRELIMINARY SCIENTIFIC  
PROGRAMME

## MESSAGE FROM THE SICOT PRESIDENT

PHILIPPE HERNIGOU

Start planning to attend the 43rd SICOT World Orthopaedic Congress in Cairo, Egypt (21-23 November 2023)!

Get ready to explore educational and scientific sessions relevant to your specialty!

The SICOT 2023 Congress, combined with the 75th Annual International Congress of the Egyptian Orthopaedic Association (EOA), is the World Congress of Orthopaedic and Traumatology Surgery. Oral communications, debates, workshops, and poster presentations will alternate with training sessions reserved for surgical specialists. With the city of Cairo, the Pyramids, the Egyptian Museum, and Ancient and Modern Egypt as background, traumatology and orthopaedics are at the heart of this event and of the training courses given on this occasion, notably on hip and knee implants, postoperative infections, spine, paediatrics, sport lesions, osteosynthesis,...

You must be there to experience three days of robust education, innovation, workshops, paper presentations, debates, symposia, research presentations, award papers, and Sicot Educational Day and Subspecialty Day. Now is the time to start making your plans!

Remember that SICOT members get the best rates to register for the SICOT meeting. So if you are not a member, go to our website and check out all the advantages of our memberships.

Abstract submission is open and anyone can submit! The Congress Scientific Programme will be of the highest standards with the participation of world-class faculties, subject leaders and the many SICOT partner organisations. Your time is valuable, and we have restructured programming and events to allow you to engage in the activities you enjoy most.

You have to be in Cairo to experience SICOT and it will be a pleasure to welcome you. Make your plans now to be a part of it and register. Of course, my invitation is for all participants: orthopaedic surgeons, researchers/PhD, scientists, marketers working in the field of orthopaedics, SICOT partner societies, and all the other orthopaedic societies.

## MESSAGE FROM THE CONGRESS PRESIDENT

GAMAL HOSNY

On behalf of SICOT and the Egyptian Orthopaedic Association (EOA), I warmly welcome you to the 43rd SICOT Orthopaedic World Congress & 75th EOA Annual Meeting in the beautiful city of Cairo which has always been famous for its heritage and cultural diversity. This is a combined meeting between the EOA, which is one of the oldest orthopaedic associations with more than 7,000 active members, and SICOT, which is the largest orthopaedic society in the world with members from 119 countries speaking over 100 languages.

This Congress will be a great opportunity for orthopaedic surgeons to take advantage of a wealth of knowledge from distinguished speakers from all over the world and discover recent advances in the management of unusual problems in developed nations such as the management of neglected fractures, conflict injuries and congenital deformities diagnosed late. With the current global economic crisis, it will be a good chance to highlight the current methods of management of difficult orthopaedic problems with limited resources.

Egypt was unified around 3100 BC and continues to be a leading economic and cultural influence throughout North Africa. The culture of Egypt has thousands of years of recorded history. Ancient Egypt was among the earliest civilizations in the world. Egyptian values, including forgiveness, tolerance, brotherhood of mankind, great respect for people with disabilities, and equal rights for women, are landmarks in the human history.

Egypt is a land of great diversity, with huge appeal to almost everyone. It is the time to explore the wonders of Egypt: the Great Pyramids and Sphinx, Temple of Karnak, Egyptian Museum, Roman and Greek monuments in Alexandria, Red Sea coast and Sinai.

Welcome to Egypt!

## MESSAGE FROM THE SCIENTIFIC PROGRAMME COMMITTEE

**MARGARET FOK**  
Scientific Programme Chair

**KHALED SARRAF**  
Scientific Programme Vice-chair

On behalf of myself, the Scientific Programme Chair, and my co-chair, Dr. Khaled Sarraf, we are delighted to welcome you to the 43rd SICOT Orthopaedic World Congress in Cairo, Egypt on November 21-23, 2023.

After a successful meeting in Kuala Lumpur, Malaysia last year, we are moving to the Middle Eastern part of the world to hold the World Congress. This meeting will be special as this is the first time that we are co-organising it with the Egyptian Orthopaedic Association.

With Egypt being in a region spanning across Africa and Middle East, we hope our congress will attract many surgeons from around the area, to participate, to stimulate and to exchange ideas.

We have organised a 2 ½ day main programme - a compact, yet comprehensive and inspirational programme for everyone. Apart from our local Egyptian orthopaedic faculties, we have invited many esteemed faculties from all around the world to share their valuable experiences in eight academic rooms and one industry room over the 2 ½ day period. We aim to provide an interactive platform in each session, enabling our participants to ask questions, get involved in case discussions, and take part in live polling. As SICOT strives to be diverse, equal, and inclusive, we are committed to ensuring that our faculty representation is truly diverse, taking into account ethnicity and gender.

Apart from our international faculties, we have invited 3 world esteemed plenary speakers and 14 keynote speakers to our Congress. Our plenary speakers are Professor Francesco Falez from Italy discussing about hip - spine relationship on hip arthroplasty, Professor Frederic Schuind from Belgium on the integration of AI for hand amputees and Dr Vaibhav Bagaria from India on the impact of robotics on performing knee arthroplasty.

For the peri-Congress activities, we plan to continue our ever-popular Education Day for the orthopaedic trainees and young fellows. Based on the feedback from previous year, we shall organise ½ day of Subspecialty Day of which will concentrate on 3 subspecialties, namely Hip, Knee and Trauma.

No successful congress can be made possible without our industry partners. Our exhibition hall will be filled with many different medical technology experts, showcasing their latest products. These include well-known international companies as well as local business, displaying their specialised equipment. In addition, we have a separate industry room this year over the 2 ½ days, with workshops organised by our partners. This enables registrants a better hands-on experience on selected specialised products. Please do register in advance, as space is limited. Otherwise, registrants are welcome to go to our courtesy room and exhibition hall to mingle with our industry representatives.

With such an exciting programme, we cannot wait to see you all in person in Egypt. Egypt is the land of the Pharaohs. There are ample exciting opportunities for attendees to visit. The string of social and networking events alongside the academic platter will ensure everyone will have something memorable to look forward to.

## VAIBHAV BAGARIA

THURSDAY 23 NOVEMBER 12:30-13:00

*THE MAN AND THE MACHINE:*

*HOW & WHY ROBOTICS IS IMPACTING THE WAY WE DO OUR KNEE ARTHROPLASTIES*

Dr Vaibhav Bagaria is the Director of Orthopaedics at Sir HN Reliance Foundation Hospital in Mumbai. He has over 20 years of experience in orthopaedics and is recognised globally as a thought leader, academician, and innovator. He completed his MS in Orthopaedics from KEM Hospital in Mumbai and undertook fellowships at various centres of excellence around the world. He is a pioneer in robotic knee replacement, artificial intelligence, cartilage regeneration, and 3D printing. He is also responsible for incubating India's first private tissue bank in Mumbai, and has facilitated numerous collaborations between engineering colleges, medical institutions, and industry to translate research into the clinical arena. He has received several awards and distinctions, including being the first Indian to top the SICOT Diploma Examination. His research focuses on optimising technology in arthroplasty and enabling its rational use worldwide. He continues to mentor graduate students, orthopaedic residents, and fellows and is an active teacher with the national board.

## FRANCESCO FALEZ

TUESDAY 21 NOVEMBER 12:00-12:30

*HIP-SPINE RELATIONSHIP IN PRIMARY AND REVISION THA:*

*WHEN DO WE NEED TO USE A ROBOT OR A DUAL MOBILITY IMPLANT?*

Prof Francesco Falez is a distinguished expert in the field of hip implants. After enrolling and graduating with honours from the Faculty of Medicine 'La Sapienza' University, in Rome and completed his residency in Orthopaedic surgery and in Sports Medicine. Over the years, he practiced foot surgery and traveled the world to improve his knowledge and experience with eminent surgeons. He received a scholarship at UCLA in basic science, which led to an in vitro research on cellular biology related to different material integration. He then oriented all his professional interest on joint replacement, working with renowned hip surgeons. He is currently the Head of the department of Orthopaedics for ASL Roma 1 and San Filippo Neri Hospital. Author of over 150 publications in national and international journals, he took part in over 300 symposiums and organised several conferences. He served as President of prestigious orthopaedic societies such as SIOT (Italian Society of Orthopaedics and Traumatology) and OTODI (Italian Association of Orthopaedic Surgeons).

## FREDERIC SCHUIND

WEDNESDAY 22 NOVEMBER 12:00-12:30

*INTEGRATION OF AI, ROBOTICS, IMMUNOLOGY, NEUROSCIENCE AND SURGERY FOR HAND AMPUTEES*

Prof. Frédéric Schuind is a highly esteemed and accomplished orthopaedic surgeon and professor who has dedicated his life to the field of orthopaedics and traumatology. With a career spanning several decades, he has held numerous prestigious positions, including the Head of the Department of Orthopaedics and Traumatology at Hôpital Erasme in Belgium and Full Professor at the renowned Université libre de Bruxelles. His expertise is widely recognized, with a focus on prosthetics. He has contributed significantly to the field through his active involvement in numerous scientific societies, including serving as President for the Société Royale Belge de Chirurgie Osseuse et de Traumatologie and the Belgian Orthopaedic Trauma Association. Moreover, his passion for improving the lives of those affected by musculoskeletal disorders is evident in his extensive work in organising international meetings, participating in surgical and educational missions in developing countries, and serving as a reviewer for various journals.

## 11th International Clubfoot Congress

It is with great pleasure that we announce the 11th International Clubfoot Congress to be held in Cairo, Egypt, in conjunction with the 43rd SICOT Orthopaedic World Congress

Our goal is to provide an exciting forum for clubfoot physicians and researchers to share knowledge and exchange ideas. With this in mind, we invite the submission of abstracts covering all aspects of clubfoot research including but not limited to the following:

- Clinical treatment outcomes
- Basic science studies
- Management of complex clubfoot
- Role of surgery in clubfoot treatment

When you have logged in to the [abstract submission system](#), please select "Clubfoot Congress" as the topic on the form.

# PROGRAMME-AT-A-GLANCE

## SICOT DIPLOMA EXAMINATION

In 2003, for the first time, SICOT held an examination for orthopaedic trainees during its Annual International Conference in Cairo, Egypt. A SICOT Diploma Examination has been held every year since. 20 years later the SICOT Congress is back in Cairo and will launch a new model of the Diploma Examination:

As we move towards digitalising educational delivery, the Part 1 MCQ's will select the candidates through our new PIONEER Learning Management System.

The VIVA (Part 2) of 19th SICOT Diploma Examination will take place face-to-face at the InterContinental Citystars Cairo. To provide candidates with maximum flexibility and convenience, an online VIVA (Part 2) will also be available before the Congress.

The SICOT Diploma Examination aims to set a global standard for examination in Trauma and Orthopaedics and to offer candidates the flexibility to choose the format that best suits their needs, while still ensuring the integrity and rigour of the examination. The exam tests the core clinical knowledge and competence of the orthopaedic candidate or surgeon in practice. The syllabus ([www.sicot.org/diploma-examination](http://www.sicot.org/diploma-examination)) for the exam is broad, covering the whole breadth of Trauma and Orthopaedics, which can be applied globally. The candidate must be able to demonstrate clinical knowledge and competence appropriate to orthopaedic and trauma surgery across the whole breadth.

The syllabus is broadly divided into the following four domains:

Basic Sciences – including Oncology and Infection  
Trauma

Adult Pathology – Spine and Lower Limb  
Upper Limb and Paediatric Orthopaedics

## FREE PAPER, SHORT FREE PAPER, JUST-A-MINUTE & E-POSTER PRESENTATIONS

As usual our programme will be loaded with your Free Paper, Short Free Paper, Just-A-Minute and e-Poster presentations; we are proud that **more than twenty-seven hundred abstracts** were submitted for this year's Congress! Come and learn all about the latest research and clinical experiences!

# 12TH EDUCATIONAL DAY

Thursday,  
23 November 2023  
14:00-18:00

The aim of the Education Day is to provide a comprehensive review course for the residents and an evidence-based update for the practising surgeons. This year will focus on **Orthopaedic Disorders in the Growing Skeleton**. There will be short lectures and plenty of time for questions and answers covering many subspecialties including basic science, arthroplasty, shoulder & elbow, orthopaedic oncology, foot and ankle, spine, hand and wrist. So, if you wish to learn, share, debate and discuss ideas and surgical techniques in an exciting environment with a group of international surgeons in one single room, the Educational Day is the place for you. We look forward to seeing you there!

## ORTHOPAEDIC DISORDERS IN THE GROWING SKELETON

Chairs: HS Chua (Malaysia), M Khanna (India)

### Session I - Basic Science

*Moderator/s:* M Khanna (India)

*Speakers:* S Sinha (Bangladesh), E Kuong (Hong Kong), M Khanna (India)

### Session II - Shoulder & Elbow

*Moderator/s:* JM Kwak (South Korea)

*Speakers:* D Rotman (Israel), JM Kwak (South Korea), J Rojas Lievano (Colombia)

### Session III - Orthopaedic Oncology

*Moderator/s:* MN Aytekin (Turkey), PT Funovics (Austria)

*Speakers:* W Ebeid (Egypt), MN Aytekin (Turkey), PT Funovics (Austria)

### Session IV - Hand & Wrist

*Moderator/s:* K Iyengar (UK)

*Speakers:* M Fok (Hong Kong), E Elkaref (Egypt), M Abdelaal (Egypt)

### Session V - Spine

*Moderator/s:* O Aldahamsheh (Canada), MN Aytekin (Turkey)

*Speakers:* B Garg (India), Y ElBromboly (Egypt), E Bal (Turkey)

### Session VI - Hip & Knee

*Moderator/s:* O Marin-Peña (Spain), M Sharma (India)
